CECI-S (25-1)

3 August 2006

SUSPENSE: 18 August 2006

MEMORANDUM FOR ALL DIVISION AND DISTRICT COMMANDERS

SUBJECT: USACE Desktop Electronic Journals

1. The USACE Library Program is conducting a first time Enterprise-wide assessment of electronic journals. All USACE divisions, districts, laboratory and field operating activities are invited to provide input for the selection of journals that will be made available to every desktop.
2. The purpose of asking for your staff's input is to provide guidance and recommendations to Corporate Information and USACE Library Program for the selection and acquisition of mission essential electronic journals.
3. The Library Program has established an on-line survey to consolidate your needs at the following URL: https://wfdevdb.usace.army.mil/pls/auth/dc2007_ess_jrnl.menu. A link to the on-line survey is also available on the Library home page: <http://www.usace.army.mil/library/>. Participants will need to use their CEEIS ID and Oracle password to log in to the survey. Local UPASS coordinators can assist in accessing the network capability called "Corps Internal Web Applications." The current list of proposed journals contains approximately 1,270 titles you can choose. For those journals not listed, the respondent can submit a new request. The response to this data call should include all subscriptions purchased in your FOA including project and individual subscriptions in addition to your basic journal collection.
4. Due to the timeliness and funding considerations, there is a short response time. Response to this survey is needed by 18 August 2006. The project team leader for this data call is Robert Romic, Robert.L.Romic@usace.army.mil.

FOR THE COMMANDER:

WILBERT BERRIOS
Director of Corporate Information
